## Single leg counters

I was wondering if anyone knew any good ones, and I want people's opinions on two different counters:

1. Trying a Peruvian necktie as a counter
2. Applying the reach-behind cradle to MMA

I've had alot of luck pulling triangles off of getting singled.

Standard or inverted? I know how to pull off an inverted triangle Judo style when singled, but how do you get a standard one? Just bite the free leg over his neck and drive the singled leg through his armpit to lock it in? Seems like a BOLT lock aka Bermuda triangle might work with that too (since his hand is wrapped around the outside of your leg)...
